NOTE—In the case of very hard-shelled seeds it will be found a good plan to steep them in tepid water for some hours previous to sowing, as this will hasten their germination.

SWEET PEAS and seeds which are liable to attack from mice should be steeped for half an hour in kerosine oil previous to sowing.

HIGHEST GRADE GERMAN PEAT MOSS (Granulated)

A most useful garden material, especially suitable for mixing with the soil in hotbeds, cold-frames, flats and the open ground (but should not be overdone).

Retains moisture, keeps roots cool in Summer, and keeps down weeds, presenting an attractive appearance to the grounds.

Ideal for mulching or covering the soil around Dahlias and in Rose beds, preventing the roots from being "cooked" during Summer.

Splendid mulch for Azaleas, Rhododendrons, Evergreens, Roses, etc. during both Summer and Winter. Its use is unlimited in the garden.
